Pulley range

Distributors and independent garages will benefit from the largest Original-Pulley-Range in the market. With **80 new pulleys**, CORTECO now offers a range of **150 pulleys**, for more than 400 car models and 1.500 applications. In addition the catalogue contains 31 new CORTECO Bolt-Kits, for the 25 most common pulleys.

Catalogue structure

The new CORTECO pulley catalogue 2009 is easier to use than ever before. All pulleys are presented with OE-Number and product pictures. The number of ribs and diameter of the specific pulleys simplify the identification. In addition, by the 25 prevalent pulleys you can find information about the new CORTECO Bolt-Kits.

All product news are marked with „NEW“.

The technical page in the catalogue shows the differences between copy and CORTECO original pulleys.

Why choose CORTECO?

CORTECO offers you with the new pulley catalogue a comprehensive overview of all pulleys, which are manufactured and particularly conceived for the respective motor vehicle type in original equipment manufacturer quality. Only the original pulleys fulfill the requirements of performance and comfort.

With the new CORTECO Bolt-Kits which contain all necessary bolts and washers for a correct replacement of the pulley, CORTECO thereby enables you to easily identify parts and offers "onstop-shopping" convenience for a professional pulley replacement.

About CORTECO

CORTECO a member of the global Freudenberg Group is specialised in products for the Independent Aftermarket. The CORTECO range offers automotive spare parts for sealing and vibration control technology as well as service parts. The Freudenberg Group is a leading Original Equipment Manufacturer and employs around 32,000 people in 52 countries. The products therefore have already been well established in the OE-market worldwide and enable garages profit from OE quality spare parts from CORTECO. More than 18,000 references underline CORTECO's position as one of the leading suppliers in the IAM. The company distributes its products from six European and a further four non-European locations.
