# CORTECO AIRSPRINGS

The Freudenberg group is a respected and innovative partner of the automobile industry for Airsprings, with our customers relying on our development know-how and raw materials competence. The result of our expertise optimises the suspension providing increased driving comfort and reduction of vibrations in the vehicle. This assists the prevention of damage to chassis components and adjacent parts, thereby reducing the need for expensive repairs to shock absorbers and suspension systems

In the Vito/Viano rolling bellows are used. These are ideal for full air springing and provide comfort and security as they were developed to meet high driving demands.

CORTECO	OE-Number	Nomination	Manufacturer	Model
80001151	6383280501	Rollbalg, Luftfederung	Daimler	638 / Vito
80001151	6383280501	Rollbalg, Luftfederung	Daimler	638 / V-Klasse
