CORTECO TIMING BELT SEAL KITS

As a company within the Freudenberg Group, CORTECO extend the product range continuous. The complete range of Timing Belt Seal Kits contains currently 103 kits for total 6.822 applications.

The dust produced from the running timing belt could cause wear to the sealing lip of the oil seal, hence reducing the deal life and increasing the risk of leakage. Oil leaking from the shaft can damage the timing belt and reduce the lifetime. Therefore CORTECO has created the Timing Belt Kits which include the camshaft, crankshaft seal and auxiliary shaft seals, thereby the handling is much easier for garages to have the correct Simmerrings available.

In the table you can find a few examples of the new references:

CORTECO	Manufacturer	Model	Gross price
289137	PSA	C2 1.6, VTS / C3 1.6 16V / C4 1.6 16V, Coupé / Xsara 1.6 16V, Break, Coupé / Berlingo 1.6 16V, Van / 1007 1.6 16V / 206 1.6 16V Hatchback, CC, Sedan, SW / 207 1.6 16V / 307 1.6 16V, Break, CC, SW	56,77
