BENEFITS OF THE CORTECO OIL SEALS FOR TRUCKS & TRAILERS CATALOGUE

- 72,000 applications and 1,150 references
- New entry DAF range
- Detailed technical information
- New inner layout with icons for quick identification of the right part
- Only catalogue for European trucks covering 80% of the market
- 6 languages: German, Italian, French, English, Polish, Spanish

NEW CATALOGUE BRINGS MORE THAN 300 NEW PARTS

The new Oil Seals for Trucks & Trailers Catalogue from CORTECO extends the range by more than 222 new parts. CORTECO now offers quality parts for more than 72,000 vehicle applications and more than 80% of the circulating car parc. The new catalogue provides garages and the wholesalers with a quick overview of Original Quality spare parts. Listed are:

- Engine seals: crankshaft, camshaft and valve stem seals
- Gear box seals
- Axle seals in standard and Cassette version
- Level selection gear seals
- Injection pumps seals

The new layout has a simplified structure with more icons. This makes identification of new parts easier than ever before.

DETAILED TECHNICAL INFORMATION INCLUDED

Assembly procedures for standard oil seals and Cassette seals are included in the catalogue to ensure the right fit of the part. Additionally, storage information is provided to ensure a long lifetime of the oil seal. Also, a specific catalogue section with the Corteco-OE cross list helps the customers to find the right part to fit on the vehicle.

WHY CHOOSE CORTECO?

CORTECO as aftermarket sales organization of the Freudenberg Group supplies oil seals from the worldwide leader in radial shaft seals. With more than 2 billion produced oil seals in Germany only, Freudenberg draws on an unparalleled expertise in materials and manufacturing technology. Whether standard technology, a composite seal or a Cassette seal, CORTECO supplies the right part in the best quality.

ABOUT CORTECO

CORTECO is the service specialist for the Independent Automotive Aftermarkt (IAM) of the Freudenberg Group. The company offers spare parts for Sealing and Vibration Control as well as service parts like cabin air filters and brake hoses. The Freudenberg Group employs more than 33,000 people in 55 countries and is a leading Original Equipment Manufacturer (OEM) in the respective product groups. The products therefore have already been well established in the first equipment market worldwide and enable garages to profit from OE quality spare parts from CORTECO. More than 18,000 references underline CORTECO's position as one of the leading suppliers in the IAM. The company distributes its spare parts and kits from 8 locations in Europe and 5 more locations in other parts of the world.
