

ENGINE MOUNTS

New fittable engine mounts for premium car brands

Car manufacturers increasingly install hydraulic or switchable engine mounts, as they combine the acoustic isolation function of conventional rubber engine mounts with a balanced dampening performance.

Corteco has increased its range of engine mounts for different high performance engines for **AUDI, MERCEDES** and **FORD**.

Selection of engine mounts new in range 07/2018:

CORTECO NO	MANUFACTURER	MODEL	OE NO*
49409386	AUDI	A4 (8W2, B9)	8W0199371BR
		A4 Avant (8W5, B9)	
49409388	AUDI	A4 (8W2, B9)	8W0199371BT
		A4 Avant (8W5, B9)	
		A5 (F53)	
		A5 Convertible (F57)	
		A5 Sportback (F5A)
